An animated screensaver featuring two fishing scenes. It is an auto start and screensaver with the ambience of wind and water, comes with water wave sounds and midi files for relaxing background music. The screen will be filled with fishing images and a sun setting at the end of the day. The time is marked in the status bar. You can choose your favorite scene from the 3 fishing screensaver scenes (Newscaster Fishing, Fisherman Fishing, Fisherman Fishing 2). Also, there is 2 midi files you can use for relaxing background music. It is an easy to use screensaver, just place it on your desktop as a screensaver and let it run in the background. No need to configure it. And if you like fishing in water, you can enjoy the midi files at the same time. This screensaver will keep you on the water until midnight. It's a nice screensaver, thanks.. I like it.. Really helps to get through the day, since I'm a fisherman.. I usually like it when there is a sunset on the water, makes me think about the times when I fished on the water... Its a really nice screensaver. But I did have a problem. First the app kept crashing, every time I tried to use it. Then I found the problem. I'm so sorry to tell you this, but in the screensaver selection, there was no "N" option (N is the name of the file the main part of the screen saver is called), and it kept crashing, so I think that's what was causing it. Sorry if you got it because of me, I will try to make it work. Thanks for the feedback, I know it is hard to run it and try to find the problem when it is so small. This is because it is running well on my computer and still crashing on others. Hopefully it will not be a problem when the new update is out. I'll work on it! I'm really enjoying using this, love the fishing theme. I'm not a fisher (yet), but I'm looking forward to catching fish. In the meantime, I'm enjoying the beauty of your beautiful work. Thanks!
